**Braille notetakers are portable devices with built-in refreshable braille displays that connect to the Internet and have word processors and other software applications that allow users to perform school, office, or personal tasks away from home.**

**Audio description, also referred to as a video description, described video, or more precisely called a visual description, is a form of narration used to provide information surrounding key visual elements in a media work for the benefit of blind and visually impaired consumers.**

**mollyburkeofficial** I don't know about you, but I am 100% someone who's mood is affected by the weather. I feel like a flower, when the sun is out I'm happy and standing tall and when it's grey outside, I begin to wilt! LOL Anyone else?

[#accessibility](#)

[Description: Molly is leaning against a colorful graffiti wall with one arm up and the other to the side. She is wearing white sunglasses, a hot pink cropped tank and striped blue and pink pants with a fuzzy pink purse]

## How do you write an accessible image caption?

Now here's where the nuance,  
and a little bit of forethought, comes in.

1. Write concise, but meaningful, descriptions. ...
2. No need for "a photo of" ...
3. Avoid physical identities unless necessary. ...
4. Describe your memes. ...
5. Don't use emoji, but do capitalize your hashtags. ...
6. Don't skimp on the punctuation.
